

DLL-160 Capsule Strip Packing Machine

DLL-160 Capsule Strip Packing Machine, be characterized of advanced structure, high efficiency, low noise and easy to operate.

It utilizes frequency control to set travel at will, increase the vibration entire column feed mechanism and optical monitoring devices, it can automatic counting, and can Auto-complete filling, sealing, tangent, batch number, cut at high-speed operation. It applies to package the Tablets, capsules and Electronic Components in the pharmaceutical industry. It can make a good sealing and lucifuge well.

Feeding system

- Product supply hopper
- Guide Rail Feeding Device or other kinds of feeding device will be made according to product shape and size.

Sealing quality

- Sensing of seal temperature by integrated sensors
- Multiple heaters per sealing tool
- Handling of all seal parameters (pressure/gap/temperature/speed) in panel
- Film unwinding with constant tension
- Various seal patterns to adapt to the quality of the packaging material

cGMP aspects

- Surface finish according to pharmaceutical regulations
- Easy access to the product feeding for cleaning and format exchange
- General execution as per cGMP regulations

Technical Parameters

Speed of drum	1.5-3m/min
Max. Packing Width (mm)	165mm can be manufactured as user's requirements
PVC for Medicine(mm)	0.15—0.1×160
AL/PL Complex Film(mm)	0.08×160
Hole die of Reel (mm)	75
Electrothermal Power	1kw×2
Main Motor (kw)	0.55
Air Pressure (Mpa)	0.4
Air supply	≥0.1m³/min
Overall Dimensions(mm)	1450×600×1670(L×W×H)
Weight (kg)	600
