

## *DGS-50F Flour Powder Packing Machine*

50kg flour powder packing machine is used for salt, flour, washing powder, sugar..ect.

### **Features**

1. The 50kg flour powder packing machine adopts holding bag weighing measurement, PLC control technology
2. The independent suspension sensors, signal transmission stability and ensure weighing accuracy
3. Host, conveyor belts, sewing charter, networking controller, ensure user-friendly operation and reduce labor intensity
4. The infrared sensor, gate control feeding materials, more energy saving
5. Weighing control system in accordance with IP54 (dust and water) requirements of the design

### **Technical Parameters**

<b>Model:</b>	<b>DGS-50F</b>
Item name	50kg flour powder packing machine
Manufacturer:	Vtops Machinery Co., Ltd.
Packing Weight:	5-50Kg
Packing Speed:	6-16 bags/min
Packing Accuracy:	±0.3%
Air Pressure:	0.4-0.6Mpa
Air Consumption:	0.5Nm <sup>3</sup>
Weighing Mode:	Sensor
Frequency/Voltage:	AC Three-Phase 50Hz/60Hz; 220V/380V
Power:	4.7kw
Dimensions:	3000×1500×2500mm
