

PSFS-30 Tube Filling Sealing Machine (Cream/Shampoo)

Advantages:

1. Simple structure which is easy to be installed and operated.
2. 304 stainless steel for machine body, neat and clean.
3. Suitable for soft tube/plastic tube/laminated tube and plastic-aluminum tube.
4. Optional mixing and heating hopper to increase cream's flowability.
5. Ejection of plastic /aluminum/ laminated tubes at the top end.
6. No tube, no filling.

Technical Parameters

Model	PSFS-30
Speed	10-35tubes per minute
Tube Dia	10-55mm
Tube length	50-250mm
Weight	250KGS
Dimenson	1350*850*1750mm(L*W*H)
Filling volume	5-250ml
