

Pneumatic Empty Capsule Conveyor JQS-1

Features

1. The JQS-1 pneumatic empty capsule conveyor adopts air amplifier as the power source.
2. Two-times material conveying helps avoid capsule locking or separation caused by impact or air pumping during conveying.
3. Our empty capsule conveyor machine is distinguished by high speed, high safety, and environmental protection.
4. Conveniently, the connection of the conveying pipeline of the empty capsule conveyor adopts quicker coupler, for easy disassembly and cleaning of the capsule loading machine.
5. Made of stainless steel, the pneumatic conveyor is in compliant with GMP.
6. This empty capsule feeding unit is an ideal choice for capsule conveying.

Technical Parameters

Productivity	8000 pcs/min
Power Supply	220V, 50Hz, 1A
Power	60W
Compressed Air Pressure	<0.5MPa
Compressed Air Flow	>180L/min
Weight	55kg
Overall Dimensions	682×600×1646mm
