

Nested Pre-filled Syringe, Cartridge & Vials Filling & Stoppering Machine

HMPL Sterile offers the cutting-edge ACCUFILL LPFS COMBO 60-OA – a high-performance Nested Pre-Filled Syringe, Cartridge, and Vial Filling & Stoppering Machine designed for 0.1 ml to 5 ml pre-filled syringes. Operating at 1 ml, this advanced system delivers an impressive output of 40 to 60 devices* per minute with precision and efficiency.

Technical Data

Applicator Shape & MOC	Pre-washed & sterilized PFS
Volume of Syringes	0.1 ml-5 ml* Change Parts Supported
Filling Material	Water Based Liquid/ Suspension/ Aqueous
Output Speed	40-60 Devices* per minute @1ml
Working Height	900 mm \pm 50 mm Adjustable
Adjustable Height Required?	\pm 50 mm Adjustable
No. of Filling Station	As per customer's requirements
No. of Stoppering Station	5 Nos. (Vacuum stoppering)
Filled volume spectrum	0.2ml/0.4ml/0.6ml/0.8ml/1ml to 5ml ** with help of change parts
Filling Accuracy	\pm 1%
Stoppering process	Vacuum stoppering
Reservoir tank	5 LTR capacity
Power Supply	Three Phase/ 415 V 50 Hz
