

Dry Powder Mixer Machine V-500

V Mixer Machine is suitable for mixing dry powder or particles. The machine is a Stand Mixer and occupies little space. The V-shaped rotates under the drive of the motor, and the material in the barrel is constantly gathered and dispersed to get a uniform mixture. The powder Mixing Machine is simple in structure, easy to operate and widely used V Series Mixer.

Technical Parameters:

- Model: V-500
- Application: Powder, Medicine Processing, Chemicals Processing, Food Processing
- Max. Loading Volume (L): 300 L
- Capacity(KG/H): 200
- Weight (KG): 550
- Power (kW): 2.2 kW
- Dimension(L*W*H): 2500*1200*2420mm
