

L-600/960 Automatic Air Washing Bottles Machine

- Use round plastic bottles with a diameter of up to 100mm and a maximum of 180mm.
- Effective bottle length ÷ bottle diameter × 6.5 = one minute of processing capacity.
- Additional purchase options: electrostatic treatment device, air outlet DOP99.99% filter combination, air wash replacement module.
- The air-washing nozzle of the air-washing replacement module meets the GMP "Good Manufacturing Practices" standard.

Technical Parameters

Model	Power	Mechanical Dimensions	Standard conveyor belt (adjustable)	Effective bottle
L-600 (Ø50×12T)	220V single phase 50/60HZ	1225mm×995mm×1900mm	3230 height 915mm	600mm
L-960 (Ø60×16T)				
L-960 (Ø60×16T)	220V single phase 50/60HZ	1495mm×995mm×1900mm	3230 height 915mm	960mm
