

Semi Auto Sleeve Shrink Wrapping Machine YC-6030 (E)

Semi-auto sleeve sealing and shrinking machine is an economical sleeve sealer packaging machine, easy to control. Based on different requirements to choose to push the product manually or pneumatically, semi-auto sleeve sealer is fit for packaging single product or groups of products, such as, cartons, beverage, cosmetics and electronic products.

Features:

- The original imported motor, which makes the pushing and sealing and cutting more stable;
- Adopt specially designed sealing knife, the sealing line is firm, does not crack and is not easy to stick to the knife;
- Using original imported electrical components, reducing failures during use;
- The concealed motor device greatly increases the convenience of operation. The pressing device at the back end ensures that there will be no displacement when packing light items;
- Products of different shapes and specifications can be packaged, and the front-end positioning frame can be adjusted arbitrarily;
- Adopt double-transport air motor, the hot air volume in the furnace cavity is even, and the effect is beautiful after shrinking;
- It adopts solid steel rod outsourcing imported silicone tube, chain rod type conveying, and the silicone is durable. Among them, this machine can add dense shaft function, which is specially designed for packaging products with relatively small volume;
- The conveying adopts frequency converter to control the conveying speed, stepless speed regulation;
- This model is an economical machine among cuff-type packaging machines. The machine is easy to operate, touch the push button, the machine automatically seals and cuts into the shrink packaging machine, mainly using PE shrink film;
- It is suitable for the collective packaging of beverages, daily chemicals, building materials, food, etc. with or without paper trays, and can also be used for single or multiple

combination sealing and heat shrink packaging of electrical appliances, auto parts, furniture, floors, etc.

- Suitable for mass production of CDs, books, photo frames, magazines, electronic products, etc.

Technical Parameters:

Model	YC-6030	YC-6040E
Max packing size	L300mm*W500mm*H300mm	L1500mm*W500mm*H300mm
Sealing size/Tunnel size	670mm	L1800mm*W500mm*H300MM
Packing speed	5-8M/min	0-15M/min
Material	PE	PE
Air supply	6-8KG/Cm ²	6-8KG/Cm ²
Power	1.0KW	18KW
Voltage	AC220V 1/3PH 50/60HZ	380/220V 3PH 50/60HZ
Machine size	L1000mm*W850mm*H1990mm	L2800mm*W950*H1750mm
Weight	350KG	625KG
