

High Speed Horizontal Labeling Machine

Apply to small round container high-speed labeling machine of pharmaceutical industrial, used for all kinds of medicine small round bottle, stable speed up to 600 bottles /min.

Feature

Tray load Storage hopper: used on design of seamless connection, after labeled make smooth for entering the Tray hopper Storage hopper, contains overweight warning system.

Makes bottles go through no pressure, more smooth for using self-weight material outlet, Whole servo makes more accuracy of Tray load wheel. Power press material set construct: adopt self - weight of machine press the tray load bottle into tray load plant inside slot makes more perfect tray load.

Technical Parameters

Dimension (reference)	4000mm(L)*1600mm(W)*1600mm(H)
Labeling precision	600/min
Label Speed	±0.5mm
Material size	1-20ml 7-20ml
