

Automatic Packaging Machine DXDK-150II

It is suitable for packing unconsolidated, non-viscous particular material such as: puffy food, fried food, peanuts, melon seeds, lentils, rice, millet, beans, peas, buckwheat, green beans, corn millet, barley, sweet, pea, adzuki bean, seeds, fertilizer, sugar, fodder, feed-stuffs, corn, Leisure food, hardware, salt, MSG, chicken essence, pesticide, fertilizer, veterinary medicine, feed premix, additives, biomass particle, detergent powder etc.

Granule Machine Packing Material:

Heat sealable laminated film like PET +PE, Foil + PE paper + Foil + PE, PET + Foil +PE, Paper+ PE etc.

- The machine is widely applied for packing various kinds of granular materials for the packing weight of granule packing machine ranging greatly to meet customers' demands.
- The machine is easy to operate.
- It requires no training for its start-up, operation or maintenance.
- The detailed illustrated manual supplied with the machine is enough to do it yourself!
- Reputed components are used in the machine guarantee the high quality of the machine.
- The work efficiency of the machine is high and needs less energy consumption.
- Convenient and ready to use, mounted on movable castor wheels.
- It does not require any installation.
- Simply place it where you want and start production immediately!
- PID automatic temperature control through PLC makes the sealing temperature accurate.
- Low noise. Machines cannot be heard during the operation even a short distance away.
- Advanced PLC Controlled Volumetric cup filler for granules.

Parameter:

Model	DXDK-150II
Voltage (V/HZ)	AC 220/50 110/60
Power (W)	1700
Capacity (bags/min)	15-70
Packing Capacity (ml)	20-500
Length of Bag (mm)	50-220
Width of Bag (mm)	30-150
External Dimensions (L×W×H) (mm)	1150*860*1850
Net Weight (kg)	320
