

DS-420/520/620 Automatic Food Packing Machine

Automatic food packing machine characteristic is that machinery replaces manual packaging, realizes the automation of enterprise product packaging production, improves enterprise production efficiency, and greatly reduces product costs. It can effectively reduce the pollution of materials in the packaging process, and the finished product is sealed.

This automatic food packing machine is widely used in various industries to package products such as food, pharmaceuticals, chemicals, cosmetics, hardware and fasteners, and medical supplies. These machines utilize a vertical forming tube to create a bag from a flat roll of film, which is then filled with the product and sealed.

Introduction

- This automatic food packing machine is lineage control, automatic feeding, no packing without materials, work stable.
- This automatic food packing machine uses Japanese technology, advanced design, easy to operate & maintain, the price is competitive.
- This automatic food packing machine is both domestic & foreign best seller in the past 10 years.
- Material conveyor design simplicity, work stable and quiet.
- The platform is solid, and it will not affect the measurement accuracy of the combination weighed.
- It can match with other equipment's, such as production line, metal detector, check weighed, case packer, save labor cost.

Technical Parameters

Model	DS-420	DS-520	DS-620
Film Width	Max.420 mm	Max.520 mm	Max.620 mm
Bag Length	80~300 mm	80~350 mm	150~350 mm
Bag Width	60~200 mm	80~250 mm	100~350 mm
Bag Capacity	Max. 1500 ml	Max. 2000 ml	Max. 3000 ml
Packing Speed	5~60 bags/min	10~50 bags/min	5~50 bags/min
Machine Power	220V, 50/60Hz, 2KW	220V, 50/60Hz, 3KW	220V, 50/60Hz, 4KW
Machine Size	1020*1346*1588 mm	1080*1488*1690 mm	1250*1700*1780 mm
Machine Weight	650 KG	700 KG	750 KG
