

## ZS Series High Efficiency Screening Machine

ZS Series High Efficiency Screening Machine is applied in sorting of dry powder granules for different sizes in the field of pharmaceuticals, chemical and foodstuff.

### Features and Working principle:

It consists of a vertical vibration motor, a sieve bottom, a mesh frame, sieve cloth, a sieving chamber, rubber rings and supports. It can be used in either single-or multi-grading, enjoying compact structure, easy handle and maintenance, stable working, low noise large feed treatment, small size and wide application.
