

## ***DDZ330-2D Multi-function Vacuum Packaging Machine***

### **Features:**

- ◆The surface of the stainless steel casing is treated with a special process that is uniform and luxurious. At the same time, it has the advantages of dirt resistance and scratch resistance.
- ◆Sealing temperature and sealing time can be adjusted in a wide range, suitable for packaging of various materials.
- ◆The heating wire pad at the sealing part is easy to replace.
- ◆Multi-functional vacuum chamber: ① special deepening vacuum chamber for tea, pickles, etc.; ② plus a flat plate, like ordinary vacuum chamber, can save packaging time.
- ◆There is an emergency button on the control panel. If the packaging process is abnormal, press the emergency button to interrupt the packaging process and use it safely.
- ◆The use of high-quality vacuum pump, vacuum effect is good; using well-known brand electrical components, stable performance and long service life.
- ◆It can be customized according to customer requirements.

### **Technical Parameters**

Model	DDZ330-2D
Voltage	220V/50Hz
Power	1050w
Vacuum room size(mm)	L350×W270×H82 (upper)
	L320×W167×H180(down)
Sealing length(mm)	330×8
Speed(pcs/min)	1-4
Machine size(mm)	L400×W463×H931
