

Three Sides Wine Bottle Labeling Machine GF-BR-8

This labeling machine is suitable for the neck of round bottle front and back, three mark label to work at the same time.

Features of pet bottle labeling machine:

1. High rigidity structure: Which insure the machine reliability.
2. Using world first-class brand electrical accessories:
 - a. Siemens controlling system
 - b. Professional sensors imported from Germany
 - c. High-performance transmission device imported from Japan
3. Unique labeling structure:
 - a. The device can adjust 8d space. And it will adjust labeling angle, which is good for all kinds of difficult transparent labeling.
 - b. Unique scraper blade, power rubber roll is press twice. It insures there is no air bladder when labeling.
4. Large power conveys system and section pressing system insure the products convey stability. And it avoids wrinkle labeling and skew labeling.

Technical parameters:

Model	GF-BR-8
Production speed	60m/min (8000-10000pcs/h)

Labeling accuracy	±1mm
Label outer diameter	330 mm
Label inner diameter	Φ76.2 mm
Conveyor chains plate width	82.6mm
Label max width	200mm (can customize according to customers' requirement)
Power	380V /220V 50 Hz 4000W
Conveyor chains plate height from the ground	900mm±50mm (can customize according to customers' requirement)
Outline size(L*W*H)	4048*1500*1650(mm)
Weight	400kg
